Irrington Ladies Testify to Finding Girl's Body in a Horrible Condition

AFTER ESCAPE FROM MCCLURES

Irrington, Ky., Nov. 19, 1903. To whom it may concern:

We, the undersigned ladies of Irrington, Ky., and vicinity, each hereby testify that we severally went and personally examined the bare body of Margarette Dorsey, the little Japanese girl, after her escape from the McClures, and that we found her body in a terribly bruised condition, also several wounds (some partly healed) which looked like burns. We furthermore testify that the said Margarette informed us that Mrs. McClure was responsible for aforesaid places by striking her with a red-hot poker. She also informs us that both Mr. and Mrs. McClure caused the terribly bruised condition of her body by brutally beating and striking her, which they habitually did. She also said they nearly starved her, and her terribly emaciated condition bears out her assertions.

MONDAY A DAY OF ACCIDENTS.

Geo. Zirkle's Foot Cut Off by Train—Two Men Receive Mashed Hand Each

OTHER MISHAPS OF THE WEEK

Geo. Zirkle, of Louisville, a brakeman, was run over by freight train No. 48 on the Henderson Route at Lodi, Monday night, and his foot was cut off just below the instep. He slipped off the tank and fell under the wheels. He was brought on the freight to the shops just below town, where his wound was washed by Dr. Simon, surgeon for the railroad. He was taken to Louisville on the early morning train yesterday. It is thought that his leg will have to be amputated just above the ankle. Mr. Zirkle is a half-brother of E. H. Zirkle, the engineer.

A very sad accident occurred up in Eastland last Sunday to one of Mr. Robert Board's children. Two of his little boys were playing in the yard when one of them threw a brick at striking the other on the head and fracturing the skull. The little fellow is in a critical condition and his recovery is doubtful. Dr. M. Smith was called in and is giving the child medical attention. Mr. Board and his family lately moved here from near Hardinsburg.

Chas. Wagner, a machinist at the L. & E. St. L. shops was accidentally struck on the right hand by a sledge hammer Monday and three fingers were badly mashed. The injury is very painful but not serious.

Will Garrett, who is a tenant on the Clint Murray farm, near town, suffered a mashed hand Monday while placing a back log on the fire at his home.

John Dunn let a heavy timber fall on the instep of his foot Monday while at work at the L. & E. St. L. shops, and the member was badly bruised. The injury was very painful and compelled him to quit work.

Will Mattingly and Alvin McGavock are each suffering from a sprained ankle, received while playing football the first of the week.

Local Company of Militia.

An application paper for the organization of a company of State Guards in this city has been signed by over forty men of this city and vicinity. The paper is before the county judge for his signature, which is necessary before the application can be sent to the governor. If the application meets with the favor of Gov. Beckham he will institute such an organization in conformity with the requirement of the State law on this subject. H. A. Oelze's large vacant store room may be used as an armory in case the company is organized. The officers of the company will be elected by the men.

NO PARTISAN ISSUE.

Democratic Opinion on the Folly of Attacking the Panama Policy.

Atlanta has more genuine commercial interest in the building of the interoceanic canal than has either Boston or New York. Georgia will be more essentially and specifically benefited by it than all the states between Chicago and the Rocky Mountains, and that lie north of the Kansas-Nebraska line and are dominated by the railway mergers that make for Pacific ports.

Because the Constitution realizes the tremendous necessity of the canal to the Southern States and the present opportunity that may never return, to so easily get the canal constructed, our position on the Panama situation is being widely quoted and approved. Even the Washington correspondent of the rabid anti-Panama newspaper, the New York Evening Post, says:

"Many of the Democratic newspapers have come out in support of the President's course on the Isthmus. Democratic Senators are saying under their breath that it is going to be very unpopular to oppose a course of action which looks toward the eventual consummation of the long-cherished project."

It is well realized by these agreeing Democratic newspapers of the South that the Constitution holds the Panama question as a business proposition. It sees no legitimate field for political exploitation of it by either party. We approve of what has been done, not because it has been done by President Roosevelt and will be supported by the Republican party, but because we would have expected a Democratic President to have done the very same things and to have been supported in so doing by every patriotic Democrat.

What is writ is writ! The situation is in our hands, without a taint of dishonor, and can only be released by us with a stigma of self-contempt.—Atlanta Constitution.

ROOSEVELT WINS AGAIN.

The strenuousness with which President Roosevelt has insisted on keeping faith with Cuba is commendable. The promise was freely made and it should have been freely fulfilled. It was not fulfilled, however, by the Republicans at the last session of Congress when they had the opportunity. It is safe to say that it would not have been fulfilled at all at any regular session, because the people responsible could have excused themselves by saying that it was impossible to put it through in the face of the other regular business. Roosevelt did not intend that any such loophole should be left, and he therefore called the extra session for the consideration of that one subject. The result is seen.

It is said that the Senate will kill or seriously cripple the bill, but it will not dare to do so. There are no Democratic Senators who are in a position to oppose it on the final vote except those of Louisiana, and they were against the treaty before. All of the other Democrats in the Senate will be bound to support the measure and thus add another link in the strong chain that has been welded together by Roosevelt for his advantage.

A weak link is the Panama incident but this will be forgotten or winked at by the people, so that he will not be injured in the end as much as he will be benefited by his position and action on the Cuban reciprocity measure.—Owensboro Inquirer.

THE NEXT SENATOR.

News comes from Frankfort that Gov. Beckham regards the very handsome majority given him for Governor largely as a personal endorsement, and that some of his closest friends are urging him to become a candidate for United States Senator to succeed Senator Blackburn. Hon. D. H. Smith, the popular Congressman from this district, is known to have an ambition in that direction. Mr. Smith is the recognized leader of the Kentucky delegation in the House and stands next to Mr. Williams, of Mississippi, as a party leader on the minority side. Beckham and Smith both live in this Congressional district and if they both become candidates for the Senate the Fourth district will witness a contest which will make the Montgomery-Roberson fight of a number of years ago pale into insignificance. Senator Blackburn of course is a candidate for re-election and the old war horse has never lost a fight yet he has made for party honors. His strength is not confined to any part of Kentucky but is general over the State.

It is too early to speculate over what would be the outcome of this three cornered fight. A Presidential election intervenes and it is most likely to play havoc with the popularity of some of the aspirants.—Elizabethtown News.

SWELLEST IN MANY YEARS.

Colored Society Outdoes Itself in Fielding Silver Wedding Reception

ABOUT 200 GUESTS PRESENT

The swellest event in local colored society and, perhaps, in the county, for years, was the silver wedding reception of Rev. and Mrs. F. T. Fielding, at the African Methodist church last Friday evening. About two hundred invitations were issued and nearly every one was accepted, as the church was almost full. Some of the older colored people say that it was the most pleasant and best conducted social affair they have ever witnessed in Cloverport.

About 8 o'clock the first guests began to arrive. The services, which were conducted by Rev. Franklin, pastor of the African Methodist church of Hardinsburg, began with an appropriate song. After the singing the congregation stood in prayer, which was led by Rev. Franklin. The ceremony was performed next by Rev. Franklin. Rev. Fielding was accompanied by the aisle by Will Allen and Mrs. Fielding by Mrs. Franklin.

After the ceremony the guests went to the tables, where they were served with cream, cake and fruits. They remained at the table until about 11 o'clock, then the reception ended with the singing of "God Be With You Till We Meet Again."

Among the presents received by Rev. and Mrs. Fielding were three silver spoons, a set of silver knives and forks and a silver butter dish. About \$30 in silver also was presented them.

Observe Week of Prayer

The local auxiliary of the W. F. M. S. is observing a week of prayer and is holding services every afternoon this week in the M. E. church at 2:30 o'clock. Rev. King opened this week of prayer Sunday morning with a missionary sermon and Sunday evening the local auxiliary held an open meeting at the Methodist church. Interesting papers were read by Messdames Ferry, F. M. Smith and R. B. Pierce.

Old Masonic Temple Burned.

The old Masonic Temple, for fifty-one years one of the principal business blocks of Louisville and the house of the Hopkins Vandeville theater, was destroyed by fire Friday morning at 2:30 o'clock. The loss is estimated at about \$200,000. The interior of the structure was completely gutted.

INAUGURAL CEREMONIES.

Frankfort, Ky., Nov. 18.—To the citizens of Kentucky: The inauguration of J. C. W. Beckham as Governor of Kentucky for the ensuing term will take place at Frankfort, Ky., on Tuesday, December 8, 1903. A committee of Frankfort citizens have been appointed, and it is the intention of the people of Frankfort to make this day worthy of the occasion, and it is therefore desired that the people of Kentucky shall unite in the ceremonies incident; and this committee on behalf of the people of Frankfort, cordially invite every one, who can possibly do so, to visit Frankfort on that day and participate, and let us all as lovers of our old State, say: "God speed to him whom the people have selected as their Chief Executive for the next four years."

THE OLD RELIABLE

MR. JOHN ELDER ON THE OLD FIDDLERS' CONTEST.

Hardinsburg, Ky., Nov. 19, 1903. Mr. John D. Rebhage, Dear Sir:—I see in this week's issue of the News a letter from Mr. A. C. Clarke concerning the Old Fiddlers' contest. My opinion and Mr. Ashley's are quite different. I think everything was done fair and I think the judges gave the first prize to the man that deserved it for I think Mr. Stewart played what would be termed old time music. I'm sure every place he played was played fifty years ago. And, I think, if Mr. Ashley could hear some of the real up-to-date music he would see quite a contrast between that Mr. Stewart played and what is called late music. Mr. Ashley was, like myself, playing for the \$25, but I knew when I saw Mr. Stewart in Cloverport that we had all as well lay down our fiddle and bow, for I had heard him play enough to know what he could do. I'm perfectly satisfied myself over the contest and if they ever have another one I'm going to enter, for I enjoy such sport as well as a man could. I have heard that they are aiming to have an old fiddlers' contest at Hardinsburg and I hope they will and I hope Uncle Fuller will become reconciled over the one they gave at Cloverport and be ready for the one at Hardinsburg, if they give it and, maybe, he will be the successful man, provided he is allowed to select some of the judges.

As ever yours,
John H. Elder.

GROWTH TOLD IN STATISTICS.

Development of the Nation in
Last 100 Years a Ro-
mantic Story.

A FEW INTERESTING STATISTICS

The growth of the United States in the century from 1800 to 1900 is best illustrated by figures published by the Bureau of Statistics of the Department of Commerce and Labor. They tell at a glance the romantic story of the development of the nation, of its increase in area, in population, in wealth, in resources, agriculture, in manufacturing, in minerals, in commerce and in education. To the casual observer this remarkable century of growth told in plain matter of fact figures, illustrates the marked advancement of the nation from a few millions of people skirting the Atlantic coast to one of the great powers of the world unequalled in wealth and resources. It shows what has been accomplished by an alert, progressive, energetic, industrious, inventive, constructive and indomitable people in a period covering only a small part of the world's history. It is a record unequalled, and which needs no adornment to add to its interest.

Our greatest development has been, of course, in the last three decades of the century. In many instances figures for the first half of the century are not obtained, because prior to 1850 the statistical records of the government were comparatively meager. Yet they are sufficient to furnish a most interesting basis of comparison.

In 1800 our area was only 827,844 square miles and our population 3,938,483. In 1900 our area, not including Alaska and our insular possessions, was 3,025,000, and our population 76,393,397. In the beginning of the nineteenth century there were only 6.4 people to each square mile, but while our area had been more than quadrupled when the twentieth century began the number of inhabitants to each square mile had increased to 33.22, or a little more than four times that in 1800.

There is no record of the arrival of immigrants prior to 1820, when but 6,385 were admitted. Compare that with the total of 448,772 in 1890, or that of almost a million in the fiscal year which ended with June 30 last.

The total wealth of the nation in 1850, when it was first recorded, was \$7,135,780,000, or \$407.49 for each inhabitant. In 1900 it had increased to the enormous sum of \$94,390,000,000, or \$1,834.84 per capita, a fourfold increase in the average wealth of each individual.

The total national debt in 1880, including both interest-bearing and non-interest-bearing obligations was \$57,976,394, a total per head of \$15.63. The debt had almost been wiped out with the end of the fiscal year of 1840, when it aggregated only \$5,753,344, or less than that of many a corporation at the present time. The debt of 1840 represented an obligation of 31 cents

It is just a common cold, people say, there is no danger in that. Admitting that statement, then there are common colds, colds which are dangerous. A cold which is a fatal sickness begins with a cold. If we could tell the common cold from the common we could feel quite safe. But we can't. The unknown variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative, some vegetable pill that will not disturb the system or cause griping. About the best is Dr. Pierce's Pleasant Pellets. If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alternative extract, which has been highly recommended by thousands of users, Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble, to stagnate or poisoned blood.

It contains no alcohol to shiver up the blood corpuscles, but makes pure rich red blood. Dr. Pierce's 100-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay cost of mailing only. For 31 stamps the cloth-bound volume will be sent. 100 pages it was formerly sold for \$1.50 per copy. Address Dr. R. W. Pierce, Buffalo, N. Y.

Paine's Celery Compound

Permanently Cures Sick and
Nervous Headaches that
Make Life Miserable.

Sick and nervous headaches are among the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of. Headaches as a rule, result from a disordered condition of the nervous system. Mental excitement, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headache invariably follows. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous headache, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructer of the nervous system. Dr. Henry Westcott, St. Clair, Mich., tells of his release from suffering as follows:—

"I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

on every inhabitant. The debt had increased to \$2,231,169,956, or \$40.46 per capita in 1870. Nineteen hundred saw it reduced to \$1,107,711,338, the cash in the treasury being subtracted.

They give Beckham 4,303; Belknap 6,440, making the total vote cast in the election, 438,861, giving Beckham a majority of over 26,000. It's shameful, when "youth" fails to show proper respect for old age, but just the contrary in the case of Dr. King's "New Life Pills." Hunters Set Woods Afire.

The woods below town were set on fire Thursday by hunters and burned several days. Owing to the absence of wind the fire did not spread very rapidly, but had to be fought some to save the fences. The farm of W. L. Anley, proprietor of the Highland Nursery, composed most of the burnt area.

This fire recalls the severe fire of several years ago in the woods of this vicinity. Many acres of woodland were swept by the flames and a number of farmhouses burned. The lives of the country people within four or five miles of the city were then in danger and much property was damaged.

WEDNESDAY, NOVEMBER 25, 1903.

We have received several communications this week from Irvington in regard to the McClure affair. We have expressed all but one feeling that what has already been published has been amply sufficient to thoroughly acquaint the public with the circumstances of the case. The conduct of McClure and his wife toward the little girl who was under their charge was bad enough. Enough has already been published we think to convince the readers of the News of this and a continual rebash of the affair in the papers cannot mend matters. For these reasons we are not inclined to publish various and sundry opinions concerning it. The facts have doubtless already come to light and this is all the public care to know.

We commend the reading of Mr. Roosevelt's address, "The American of 1903," printed on another page of this paper. This address was delivered at the New York Presbyterian church from the pew occupied by Abraham Lincoln during his residence in Washington as President of the United States. It is, like all of Mr. Roosevelt's speeches, interesting and good reading for the masses.

The ladies of the Foreign Missionary society of the M. E. church south of this city had an interesting service at the Elm street church last Sunday night. Three good women were to be congratulated on their excellent work and their well written papers.

In the case of Panama secession is all right for the reason that she succeeded.

We are not thankful Mr. Turkey is just a little too high for us.

State of Kentucky,
County of Breckenridge, }
I, Marion Weatherholt, Secretary and Treasurer, of the Cloverport Real Estate and Improvement Company, Incorporated, being duly sworn, state that the foregoing is a true statement of the condition of said Company at the close of business October 26, 1903, to the best of my knowledge and belief.

MARION WEATHERHOLT,

Secretary and Treasurer Cloverport Real Estate and Improvement Co., Inc.
Subscribed and sworn to before me by Marion Weatherholt, Secy. and Treas. Cloverport Real Estate and Improvement Co., Inc., this 26th day of October, 1903.
My Commission Expires January 10, 1904.

NOTES.—This Company was incorporated August 26th, 1903, and has been doing business exactly two months, and shows net earnings of \$340.00, which is at the rate of nearly 10 per cent. per annum, and they are prepared to build you a nice residence at less than you could build it yourself, and on payments not much above the rent you are paying. Any one desiring to own their own home will do well by consulting this company before buying elsewhere.

Absolute Happiness

Is the aim of all human beings. Various are the ways of attaining this state of mind. I, Walter B. Oelze, will try to see that a great many people are made supremely happy this Christmas by giving. Not by free gifts to the people in general, but by the giving of the best values for the money to be had in the country. You may not be fully aware of the nice things that can be bought here for so little money. It may be and most certainly will be to your advantage to see to this and try to make that friend or relation of yours happy at no great expense. Suppose it is a girl: I have nice toilet sets, nice manicure sets, bon-bon dishes in silver and cut glass, nice rings, watches, lockets, chains, brushes and most everything else that is nice for presents. I will try to show you things that are nice, pretty and useful with the correct prices. Is it not worth a lot to you to make people happy? If you have never found this extreme then try it this Christmas and see if you wouldn't willingly add a few extra years on to your lives. You remember that about nineteen hundred and three years ago there were certain wise men from the East that showered costly presents upon our Saviour and this token of friendly feelings has been handed down from time to time until it is more in vogue today than ever. Don't you remember how intensely happy you were when you were first old enough to realize that it was drawing near the time for "Santa-Claus" to come! Do you suppose that people have changed since then? Well, they haven't changed in that respect. Every one enjoys the giving and receiving of presents so there is no more to be said but to come to the

LIE ELDER UNDER ARREST.

ITES
e Elder, of Dexter, Ind., a well-
known farmer, was shot from ambush
last night, Nov. 17, near Mt.
Pleasant, Ind., while returning from
some of his son, a few miles away.
The assassin used a shot-gun and
the Elder passed by him filled his
with shot. Elder fell from his
horse and managed to crawl to his
home some distance away. In addi-
tion to the wound he dislocated his
right arm in falling from his horse.
A party was at once sent for and re-
lationship to Booneville to Sheriff
Hudson for his bloodhounds. The
shot of the shooting did not spread
Wednesday.
The bloodhounds arrived at Can-
nel-on the 9:30 a. m. train. Wednes-
day and were taken overland at once
to the scene of the shooting, which

FORMER SHOT FROM AMBUSH.

Attempt Made to Assassinate Late Elder Between Dexter and Derby.

LIE ELDER UNDER ARREST.

Jas. Elder, of Dexter, Ind., a well-known farmer, was shot from ambush last night, Nov. 17, near Mt. Pleasant, Ind., while returning from some of his son, a few miles away. The assassin used a shot-gun and the Elder passed by him filled his with shot. Elder fell from his horse and managed to crawl to his home some distance away. In addition to the wound he dislocated his right arm in falling from his horse. A party was at once sent for and relationship to Booneville to Sheriff Hudson for his bloodhounds. The shot of the shooting did not spread Wednesday. The bloodhounds arrived at Cannel-on the 9:30 a. m. train. Wednesday and were taken overland at once to the scene of the shooting, which about half way between Dexter and Mt. Pleasant. Elder is about three miles from Derby, on the Ohio road to Stephensport. The bloodhounds took up the trail at the scene of the crime and went to the home of Jas. Elder a distant relative of the slain. Elder's three miles away. The seventeen year old son of Jas. Elder was not at home when the bloodhounds arrived at his father's home. The dogs were stopped at the house and no officer being present no arrest was made. For a time no one could be found who would swear out a warrant against young Elder. Deputy Sheriff Haley and Detective Hales finally located him at the home of his father, near Dexter, and arrested him Friday on the charge of attempting to assassi-

nate his near relative, Late Elder. He gave bond for \$1,000 for his preliminary hearing before Judge Tate. Young Elder and the wounded man had some misunderstanding a few weeks ago. It is reported that the former threw a stone at the latter's wife and was then ordered to get off his land. Late Elder is about fifty-one years of age and a well-to-do farmer. It is reported that he is related to the Elders of Breckenridge county.

A Good Name. From personal experience I testify that Dr. J. C. Elder's Pills are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease. W. T. Easton, Boone, Tex. Thousands of people are using these tiny little pills in preference to all others because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by All Drug Co.

Should Increase Reward.

In a talk with several farmers from Taylor's Bottom there is a feeling that the reward for the arrest and conviction of the person who burned the Suddarth barn ought to be \$500 in stead of \$100 as published elsewhere. If the amount is larger it will interest some detective who understands the work and who might soon run down the guilty party. It might be the means of breaking up this lawlessness. -Cannelton Telephone.

A VOICE FROM MONTANA.

In the far away State of Montana, there were assembled, a few weeks ago, large number of the Baptists of that State, and, during their session, a paper was read on Man's Abusive Use of Alcohol. L. H. Leslie, a man whom Kentuckians have long delighted to honor, than whom a worthier or more noble never graced the executive chair of any state in the Union. The paper has been published in some of our religious periodicals, and I wish to place a few of its closing paragraphs before the readers of the News. The quotation will speak for itself:

"I have now shown, first, something of the magnitude of the problem, its practice and strong position, and power amongst the almost eighty millions of American people; second, something of his cost in gold and silver; and the greater cost in his death marks amongst the brotherhood and families of this country; and third, have given notice to the state of lethargy and implied, on tacit approval and encouragement by the people, to its presence and progress; and, fourth, I have here shown from the Bible, faithful side of this great question the Lord of Life is upon, and his counsels thereon to the sons of men."

"I suggested three effective remedies only (many others will be thought of): First, faithful home government and taxation, including all the great fundamental virtues and truths taught in the Bible, and the enforcement of correct discipline. Second, a bold and courageous out-giving voice, and actions corresponding, for the church and her membership, led by the brave stand and teaching of the preachers. Third, have all the people, church members, and those not church members, saints and wicked men, all, of all sentiments and opinions, who love good order and who are against and desire these great abuses in the use of strong drink, to be put in restraint, talk and act to that end, thereby creating a public sentiment about that subject which will subvert other policies and questions to the success of this great cause."

"The grade of morals never rises in a community, state or country, above the homes of its people. And the home-culture and training always boils out in public sentiment. "All three of these remedies, if administered in the right spirit, will have the helping presence of him who maketh no mistakes, and never allows one to be lost who trusts in his counsel and obeys this will. "And now, brethren and sisters of this Baptist assemblage of warriors for Christ, let us gather at the throne of grace and find strength enabling us to go out to the churches, and to all the Christian people of the country for their help and co-operation in trial to blockade this mighty current of death dealing power and stop the sound of its tormenting voices in the homes of our children."

It will now be in order for the apologetes for, and supporters of, the licensed saloon to take up again the foul quill they have plucked from the dark wing of their favorite bird, and add the fair and honored name of Ex-Governor Preston H. Leslie to the list of those they are pleased to call cranks, fanatics and hypocrites.

TO HELP THE FARMERS.

Representative Trimble Introduces Bill to Enable Them to Fight Tobacco Trust.

A special from Washington says: Representative Trimble, of Kentucky, introduced in the house a bill which, if adopted, will, in his opinion, make growers of tobacco independent of the tobacco trust. The bill gives the tobacco planters the right to market free of tax their tobacco in its pure state, in any quantity or package.

"The Tobacco trust," Mr. Trimble declared, "absolutely controls the tobacco situation. This year prices have been cut 30 per cent. with the result that growers can hardly make enough on which to live. My bill will give to growers the opportunity to stem and twist their tobacco without tax. They will thus have the advantage over the trust of six cents on every pound they produce. If the Republican party refuses to pass this bill it will go on record as favoring the trust, and will so the hands of the planters that they will be unable to sell the product."

Coldest of the Season.

Bitter cold weather prevailed over the state last Wednesday and Thursday. It was the coldest on record at some places and the coldest in more than twenty years all over the state up to this date of November. Nowhere in the state was the temperature higher than 20 degrees and in some places it was down to 12. In the west, the cold was very severe, zero being reached in many places. In this city the mercury went down to about 10 above. The sudden change proved a good thing for the merchants, who found a ready sale for their winter goods.

Cloverport Has Been Rated.

Tobacco Eight Feet High.

Mr. Edward Downing yesterday brought to the city samples of tobacco grown under canvas, says the Lexington Herald. His is the first experiment to be made in Fayette county. Results are gratifying. He has produced a yield several hundred pounds greater to the acre and of cigarette wrapper grade. Some of his plants attained a height of eight feet.

This year Mr. Downing only had two acres under canvas. While the expense of covering this much territory was \$150, he believes that on a more extensive scale and computing the cost for ten instead of one year, the expense per acre can be reduced to probably \$50.

This would make the method highly advantageous over the open field. The leaf grown under canvas is free from sand holes and is not disturbed by worms.

War on Unhealthy Cattle.

Steps to rid Kentucky of cattle infected with tuberculosis, the milk from which, it is claimed, can transmit the disease to humans, have been instituted by the State Board of Health, which proposes to eradicate this peril from the State.

HEALTH

"I don't think we could keep house without Theodor's Black-Draught. We have used it in the family for over two years with the best of results. I have used a doctor in the house for this length of time. It is a doctor in itself and always ready to cure a person well and safely." -JAMES HALL, Jacksonville, Ill.

Because this great medicine

relieves stomach pains, from the constipated bowels and invigorates the torpid liver and weakens kidneys.

No Doctor
